Art Road Map

EYFS

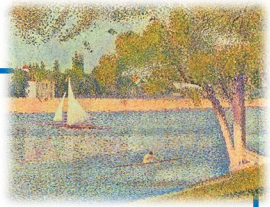

As soon as children start school at Branston Church of England Infant Academy, they begin to develop their artistic skills. This is through a range of adult guided and child initiated activities. Children will focus on drawing, sculpture, printing and painting. These skills will be revisited and developed across the year. Children will learn about the artists Andy Goldsworthy, Henri Rousseau and Van Gogh.

KS1 Cycle A

In Cycle A, KS1 children will build on their knowledge and understanding of drawing portraits from EYFS. They will be introduced to sketchbooks as a working book to allow them to explore different artistic techniques. Children will develop skills in tonal shading. Children will learn to use rollers and ink to print leaf art. Children will expand on their knowledge and skills of manipulating clay from EYFS to create a more intricate piece. The children will experiment with a range of techniques and explore joining to create a minibeast tile. Children will learn about the artists: Frida Kahlo, William Morris and William De Morgan.

KS1 Cycle B

In Cycle B, KS1 will develop their drawing and painting skills and apply these to sketching landscapes, whilst learning about the local area. The children will learn about a different painting technique- pointillism and compare with other techniques they have looked at. Children will develop printing skills from EYFS and Cycle A, exploring print on different fabrics. They will also learn about traditional African art. Children's knowledge of colour mixing in EYFS will be put to good use. Craft skills will be used such as weaving which children in EYFS explore through play. Children have experienced sculpture skills when junk modelling in EYFS. They will now work on making and using their own materials to sculpt, including wire. They will develop their eco awareness through learning about a sculptor who uses recycled materials. Children will learn about the artists Georges Seeurat and Michelle Reader.
