RE Road Map

EYFS

Pupils begin their journey by talking about themselves and finding out more about other people. They consider and discuss how people are the same as them and how they are different, including the fact that other people might have a different world view than them. Children are introduced to different religions, the books and stories that are important to them and which places are special to them.

KS1 Cycle A

Pupils explore the Christian concept of God and their shared beliefs as God as Creator. They will better understand ways in which Christians talk about God and ways in which Christians read important stories to find out more about what God is like. Pupils will also learn about Allah, and learn about the historical and geographical origins of Islam. Throughout the year the children will look inwards at their own worldview. They will consider how context has shaped the things they believe and value, and explore how context has influenced how they live their own lives. Pupils will learn through the different ways of knowing in RE: theology, human/social sciences and philosophy.

KS1 Cycle B

Throughout the year, pupils will continue to develop their awareness and understand of religious stories and key sources of authority which people of faith follow. They will explore these texts to understand Christian, Sikh and Muslims' beliefs about human beings. Pupils will apply this knowledge through two case studies which will investigate how the key sources of authority influence people of faith, and how they live their lives. Later in the year, pupils will learn how religious and non-religious people welcome a baby into their community through naming ceremonies. Again pupils will explore this knowledge and concepts through the lense of theology, human/social sciences and philosophy.
